MEMORANDUM FOR RECORD

FROM: CAP/CC

SUBJECT: Military Orientation Flights for CAP Cadets

Department of Defense Regulation 4515.13R authorizes CAP cadet orientation flights in DoD-owned aircraft. These flights can be authorized at the discretion of the Military Departments. Passengers on orientation flights must be in an appropriate CAP uniform and have a current CAP identification card. In addition, CAP cadets under 18 years of age require written parental permission. The DoD regulation gives the CAP National Commander the responsibility to monitor, control, and authorize military orientation flights for CAP cadets when these flights are conducted in connection with approved CAP activities. Until ordered to the contrary in writing, I delegate this authority to John Salvador, HQ CAP/DO and Rick McDow, HQ CAP/NOC. These individuals have the responsibility to ensure the requirements of this DoD regulation are properly communicated to the CAP unit and CAP-USAF State Director before the flights are authorized.

A handwritten signature in black ink, appearing to read "Dwight H. Wheless", is positioned above the printed name.

DWIGHT H. WHELESS  
Major General, CAP  
Commander
